	11	44
	13	44, 54
	14	52, 65
	16	44, 65

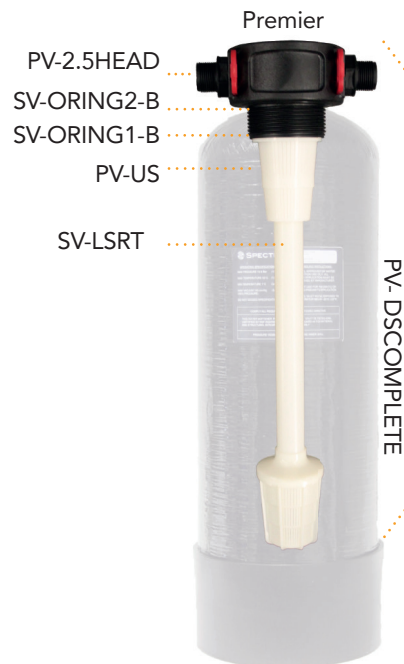

SV-FK - -

Add suffix "-C" to the above code when ordering a vessel with complete distribution system. e.g. SV-FK-613-C

Features & Information

- Designed to filter high volumes of water through a bed of media, the SV pressure vessel range are constructed from food grade materials on all parts in contact with water
- Complies with PED 97/23/EC Directive
- Threads on the vessel neck are made from 30% glass-filled polypropylene for enhanced strength
- Pressure cycle tested 250,000 times to ensure reliability
- Pressure tested to 42 bar – over 4 times the maximum operating pressure
- Lot-coded for traceability and tracking
- Individually packaged to assist storage, handling and transportation
- For volumes and packaging information please see www.sfwt.eu/sv-fk
