

UV-Led
MIOLED
Technology

POINT OF USE DISINFECTION

UV-LED TECHNOLOGY

MIOLED is ready to be connected directly to your kitchen faucet. It turns on instantly when water passes. It guarantees disinfected water with very low power consumption. It can be combined with a pre-filter.

Advantages

LED technology
(NO UV lamp)

Plug and play

Easy installation

Energy and maintenance
cost saving

Small size

Unlimited ignitions
without preheating

Long life

MADE IN ITALY
