

SINGLE CARTRIDGE ROUND - REGULAR 10"

A modern injection process allows for a lighter, easy to handle housing range with four port sizes for different fittings and pipework. The ¼" and ¾" ports are typically paired with push-fit fittings and flexible tubing, ideal for OEM systems and drinking water under-sink installations. The ½" and ¾" port sizes are compatible with standard inline pipe installations. Brackets and connectors allow for easy system builds.

FEATURES & BENEFITS

- Ideal for OEM systems and under-sink installations
- Compatible with standard inline pipework
- Four port size options

TECHNICAL DATA

Port Sizes (BSP")	1/4, 3/8, 1/2, 3/4		
Cartridge Compatibility (")	9¾, 9¾, 10		
End-Cap Compatibility	DOE, AA, CG		
Brown B. H. H.	PK - 8.6		
Pressure Rating (bar)	SC - 6.9		
Temperature Rating (°C)	4-40		

MATERIALS OF CONSTRUCTION

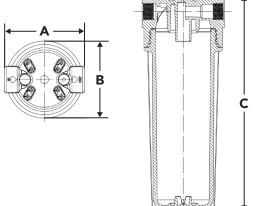

O-ring: Buna-N

Head: Polypropylene
PRV: Polypropylene
Spring: 304 Stainless Steel
Sump-Black: PK=Polypropylene

Sump-Clear: SC=Styrene Acrylonitrile

DIMENSIONS

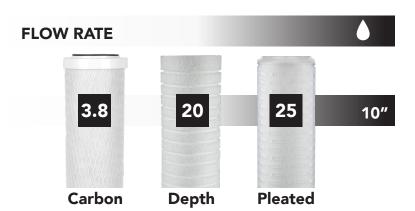

Dimensions (mm)					
Housing	Α	В	С		
EFH-10" (1/4, 3/8)	120	115	297		
EFH-10" (½, ¾)	120	115	326		

PLASTIC FILTER HOUSING

ACCESSORIES

Brackets EFH-BK

Brackets come in single, double and triple complete with wall and head mounting screws. Made from galvanized steel and coated with a white powdered finish, which prolongs the brackets life.

Spanners EFH-SW10

These spanners have been specifically designed to not damage the sump, which makes them invaluable for cartridge change out.

Connectors

1/4" to 3/4"
To join multiple housings together or connect inlet and outlet ports to pipework, a selection of suitable fittings are available.
